

Northern Ontario Company Seeking Experienced

“Commercial / Residential Alarm and Network Technician”

Join our team! Bring us your experience, your desire to grow and your motivation. Discover a company committed to your professional development. We believe excellent skills; quality work and great attitude should be rewarded. We are a well-established company in a city, which is an excellent place to raise a family and has great amenities.

As a Commercial and Residential Alarm and Network Technician, you will be responsible for installing and servicing PBX Systems, VoIP Systems, TCP/IP Networks, Burglar & Fire Alarms, CCTV Security, Access Control & Wireless solutions. You must have the ability to do project management as a working technician; and you will have the opportunity to assume management responsibilities as your abilities allow.

The candidate must have a diploma/degree in Networking and some formal programming training; however we are willing to further train the candidate with the proper education and desire for continual learning.

Main Duties and Responsibilities: The successful candidate will be responsible for:

- Performing customer surveys and assisting in designing, troubleshooting and maintaining systems
- Installation, maintenance of equipment and systems
- Performing service calls
- Running cable and terminating jacks, programing software, troubleshooting faulty lines and cables and doing moves/adds/changes to customer equipment
- Attending continuous education courses in related fields

Qualifications and Skills: Ideal candidate must be or have:

- Electronics background or formal education in the Programming/Network field is mandatory
- Proficient with IP/networking and Windows programming is a big plus
- Great attitude and work ethics
- Desire for personal growth and advancement with an interest in continual learning
- Excellent customer service skills
- Must have excellent oral and written communication skills, and be organized and detail oriented
- Must enjoy both technical and physical installation and has experience with hand tools
- Can easily adapt to changing work environments and enjoys working with their hands and technology.
- Experience in low voltage cabling is a significant asset

The position will require the candidate to use sound independent judgement within established procedural guidelines and demonstrate professional integrity.

Wage and Benefits:

- Permanent full time
- Competitive Salary based on level of education and experience
- Company Vehicle
- Company Cell Phone
- Health and Life Insurance benefits after successful completion of probation period

Security and Safety Requirements:

- Bondable with Criminal Record Check.
- Must have valid Driver's Licence and clean driving record.
